

Lotfi BENDIAF

Doctoral researcher in computer science

CONTACT

EMAILS

Pers: lotfi.m.bendiaf@gmail.com

Edu: ml.bendiaf@chlef-univ.dz

PROFILE

"I am a systems engineer and also a doctoral researcher in computer science, passionate about my field, I aim for excellence through hard work and rigor. "

SKILLS

9/10

Scientific research

9/10

Websites & Web applications

8/10

Conception

8/10

Project management

8/10

Design

LANGUAGES

English EFSET 64/100

French DELF B2

PROGRAMMATION LANGUAGES

Python, JAVA, JavaScript, C, C++, PHP, SQL

FRAMEWORKS

Django, JEE

EDUCATION

NATIONAL COMPETITION FOR ACCESS TO DOCTORAL STUDIES

2019 → present

Hassiba BenBouali University Oulad Fares Chlef - Algeria

PhD student researcher in Computer Science working on

"Dynamic adaptation approach for distributed systems behaviour"

MASTER II in Engineering and Management of Information Systems

2016 → 2019 (September 16th, 2019)

National Polytechnic School of Oran Maurice AUDIN / Oran-Algeria

Adaptation of a graph-oriented No SQL solution (Neo4J) within the company

ENGLISH for Science, Technology, Engineering, and Mathematics

2019 → 2020 (November 11th, 2020)

University of Massachusetts - UMass | College Education

Engineering studies in English / Online

SYSTEMS ENGINEER

2016 → 2019 (June 26th, 2019)

National Polytechnic School of Oran Maurice AUDIN / Oran-Algeria

Design and implementation of an archives management platform

DEVELOPMENT OF MOBILE APPLICATIONS

2016 → 2017

Be Smart

NATIONAL COMPETITION FOR ACCESS TO SUPERIOR SCHOOLS

2014 → 2016 (July 1st, 2016)

Engineering student in science and technology

Preparatory School in Science and Technology of Oran

MATHEMATICS BACHELOR

2014

Khawarizmi High School

Basketball
Billiard

ACADEMIC PATH AND AWARDS

12/10/2021 → Present Teaching algorithmics practical works in "C" programming language (Hassiba benbouali)

08/01/2020 National communication: National researcher day conference (university of mostaganem)

18/12/2019 National communication: The first day on Geographic Information Systems GIS (Hassiba benbouali)

PROFESSIONAL EXPERIENCES

DEVELOPER, FREELANCER FULLSTACK (Backend & Frontend)

From 07/07/2019 → Present

Website: <https://lotfi-bendiaf.herokuapp.com/>

PHD STUDENT RESEARCHER in [Dynamic approach of distributed systems behaviour]

From 07/11/2019 → Present

Hassiba BenBouali Chlef University – Algeria

SONATRACH LQS INTERNSHIP, Information Technologies Department

From 11/12/2018 → 05/05/2019 Oran - Algeria

Position held: Intern (End of studies internship)

Missions and tasks:

- Design, production and implementation of a computerized platform (Web application) for the management of archive documents for the company SONATRACH "ArchivDoc"

SONATRACH LRP INTERNSHIP, IT and Information Systems Department

From 03/11/2018 → 03/01/2018 Oran - Algeria

Position held: Intern (application and implementation internship)

Missions and tasks carried out:

- Design and production of a mobile application for an electronic library named "E-Library"

SONATRACH LRP INTERNSHIP, IT and Information Systems Department

From 04/03/2017 → 04/03/2017 Oran - Algeria

Position held: Intern (immersion internship)

Missions and tasks carried out:

- Immersion in the study and development of application solutions department
- Design and production of an authentication application

PROGRAMMER

From 02/10/2016 → 02/03/2017 Oran - Algeria

Oria Robotics Sector

- Realization of robot line follower and obstacle avoider
